CLIPS Final Conference

Convitto Della Calza, Florence

Wednesday 1st June, 14:00 (CET)

Summary

CLIPS a European funded initiative has been working on a **new approach to delivering public services** using cloud computing, with **stakeholder collaboration, interoperability and replication** as key concepts.

Join us at our final conference and exhibition to learn more about this flagship European initiative that could **revolutionise public service delivery**, see the technology in action, meet the developers and discuss the potential of becoming a trial partner.

Sessions

The event will feature presentations from a range of European public cloud initiatives, as well as participation from organisations such as HPE, AgID, Progress Software and Trust-IT Services. It will be divided into 4 key sessions:

- **Project and Pilot Results**
- **Data Protection, Security and Privacy**
- **Commercialisation (Business Models and Sustainability)**
- **Key Learnings and Recommendations**

More information

Entrance to the CLIPS final conference is free of charge if you register with us in advance.

To register please contact James Hughes: **james.hughes@pnoconsultants.com**

Look out for the CLIPS exhibition at the Major Cities of Europe Group's event, which is held from **30th May to 1st June** and is an opportunity to network with CIOs from cities across Europe

We hope to see you there!
